

8/26/15

PLN Issues Management – Frankie Gould

What will we do?

- SR-PLN will connect with regional and national partners, such as JCEP, EDEN, ACE and SAAS to develop a coordinated plan to address issues management across the system.
- Develop a process to use as a guide to addressing issue management.

How will we do it, over the next 12 months, we will . . .

- SR-PLN will develop a one page summary to use as discussion starter for each of the partners
- We will reach out to partners to explore models through these contacts:
 - Virginia Morgan White – National Issue Management working Group
 - Stacey McCullough – JCEP
 - Michael Yoder - EDEN
 - Frankie Gould – ACE- SAAS
- Use eXtension Create environment to move the existing working group resources to a shared location.
- The SR-PLN Issues Management Group will serve as the leadership for this initiative. We will have conference calls every other month starting in October to address the advancement of this program.
- This multi-disciplined group will be a liaison to their respective SR-PLN committees.

Frankie
